WORLD DIABETES DAY POSTER COMPETITION

Diabetes ACT and Healthy Schools Network are pleased to announce the **World Diabetes Day Poster Competition** for primary school students in the ACT.

The theme of World Diabetes Day for 2009-2013 is *Diabetes Education and Prevention*, and our poster competition is designed to encourage children to become enthusiastic about activity and good health in their lives – a key part of diabetes prevention.

Primary school students in the ACT are invited to submit a poster with the theme of **Activity and Having Fun**. Posters can include drawings, paintings and collages and should be a minimum A3 size. The competition is for individual entries only and closes on Friday 29 October 2010.

Each first prize winner's school will also receive \$250 worth of sporting equipment vouchers.

There are great prizes to be won for the first three place-getters in each age category (5-8 years of age & 9-12 years of age).

We would appreciate you circulating this information to teachers and encouraging them to incorporate the competition into their Term 3 Art or Sports Program. Students may prepare their entries as a school or home activity.

Entry forms are suitable for photocopying and are included with this package. Please ensure that one is attached to the back of each entry.

For further information ph: 6287 8730 or email: janet@diabetes-act.com.au
